In mathematical analysis, and applications in geometry, applied mathematics, engineering, natural sciences, and economics, a function of several real variables or real multivariate function is a function with more than one argument, with all arguments being real variables. This concept extends the idea of a function of a real variable to several variables.

A complex number is a number that can be expressed in the form $a + bi$, where a and b are real numbers, and i is a solution of the equation $x^2 = -1$. Because no real number satisfies this equation, i is called an imaginary number. For the complex number $a + bi$, a is called the real part, and b is called the imaginary part. Despite the historical nomenclature "imaginary", complex numbers are ...

Laplace Transform. The Laplace transform is an integral transform perhaps second only to the Fourier transform in its utility in solving physical problems. The Laplace transform is particularly useful in solving linear ordinary differential equations such as those arising in the analysis of electronic circuits.. The (unilateral) Laplace transform (not to be confused with the Lie derivative ...

Fourier Transform. The Fourier transform is a generalization of the complex Fourier series in the limit as $\Delta t \rightarrow 0$. Replace the discrete with the continuous while letting $\Delta t \rightarrow 0$. Then change the sum to an integral, and the equations become

1. The biomedical model of mental disorder: a critical analysis of its validity, utility, and effects on psychotherapy research. Mental disorders are brain diseases caused by neurotransmitter dysregulation, genetic anomalies, and defects in brain structure and function.

The biomedical model of mental disorder: A critical ...

Importance Depression and anxiety are common mental disorders globally but are rarely recognized or treated in low-income settings. Task-shifting of mental health care to lay health workers (LHWs) might decrease the treatment gap. Objective To evaluate the effectiveness of a culturally adapted psychological intervention for common mental disorders delivered by LHWs in primary care.
