3. Dimension 1 SCIENTIFIC AND ENGINEERING PRACTICES. From its inception, one of the principal goals of science education has been to cultivate students' scientific habits of mind, develop their capability to engage in scientific inquiry, and teach them how to reason in a scientific context [1, 2]. There has always been a tension, however, between the emphasis that should be placed on ...

From the get go, many people would think that something like an overseas assignment or an overseas operation would involve the military. It certainly has a very army-like ring when spoken, but overseas assignment and operation can actually involve investigative services and the operatives that work for any investigative service.

1. Adlerian Contribution to Contemporary Practice Question from Gil Levin (BOL): Alfred Adler's name is better known to today's therapists than are his ideas and methods. Your dedication to this body of work must be based on the belief that contemporary practice is diminished because Adler's contributions are not fully enough understood or used currently.
