Historical Perspective. Before the National Institutes of Health began their research in the 1980's, the only definition of dyslexia was an exclusionary one. If a child's difficulty with reading could not be explained by low intelligence, poor eyesight, poor hearing, inadequate educational opportunities, or any other problem, then the child must be dyslexic.

We live at a time where academic freedom is under threat from ideologues and activists of all persuasions. The latest threat comes from St Edmund's College, Cambridge, where administrators appear to have capitulated to a mob of activists (students and academics) who mounted a campaign to have a young scholar fired for "problematic" research.
