An important use of technology is its capacity to create new opportunities for curriculum and instruction by bringing real-world problems into the classroom for students to explore and solve; see Box 9.1. Technology can help to create an active environment in which students not only solve problems, but also find their own problems.

9 Technology to Support Learning | How People Learn: Brain ...

Even though it looks calm, a liquid sitting in a sealed container is still very active. When there is air above the liquid, some molecules of the liquid evaporate to become gas -- vapor -- while others condense to become liquid again. Eventually, these two movements are balanced and the liquid and gas are in ...
