Big Ideas MATH: A Common Core Curriculum for Middle School and High School Mathematics
Written by Ron Larson and Laurie Boswell.

Big Ideas Math: Student Edition

There are two basic aspects of programming: data and instructions. To work with data, you need to understand variables and types; to work with instructions, you need to understand control structures and subroutines. You'll spend a large part of the course becoming familiar with these concepts. A variable is just a memory location (or several consecutive locations treated as a unit) that has ...
