Logistic regression and artificial neural networks are the models of choice in many medical data classification tasks. In this review, we summarize the differences and similarities of these models from a technical point of view, and compare them with other machine learning algorithms.

Logistic regression and artificial neural network ...

In American jurisprudence, a suspect classification is any classification of groups meeting a series of criteria suggesting they are likely the subject of discrimination. These classes receive closer scrutiny by courts when an Equal Protection claim alleging unconstitutional discrimination is asserted against a law, regulation, or other government action, or sometimes private action.
