Stepping Up Our Game: Re-focusing the Security Community on Defense and Making Security Work for Everyone. Since the first Black Hat conference 20 years ago, the security community, industry and the world have changed to the point that it's time to re-examine whether we're living up to our responsibilities and potential.

Black Hat USA 2017 | Briefings
Many factors go into the decision of how to classify certain data. These factors include the following: Value: Value is the number one criterion. Not all data has the same value. The home address and medical information of an employee is considerably more sensitive (valuable) than the name of the chief executive officer (CEO) and the main telephone number of the company.
